SUMMARY

I like building things..

WORK EXPERIENCE

Edstruments

Bengaluru

Frontend Developer

Sept 2024 - Present

- Developed advanced React dashboards for financial management and reporting
- Revamped data visualisation features to enhance user insights and decision-making
- Worked on Credit card user onboarding and management.
- Collaborating with cross-country team members, improving cross-cultural communication skills

MapUp

Remote

Full Stack Developer

Aug 2023 - Aug 2024

- Collaborated with data and development teams to launch project MVP, gathering feedback from 10 customers and implementing an industry-standard plugin for the Motive marketplace.
- Created a map to visualise Toll data, resulting in a 580% faster loading time by displaying high-quality toll boundaries for visible regions and low-quality boundaries elsewhere.
- Refactored the TollGuru dashboard from WordPress to Astro, significantly improving loading speed and achieving a clean, consistent UI.

Foozy

LPU, Jalandhar, Punjab

Founder

Jun 2022 - Jul 2023

- Built and launched a multi-vendor food preordering platform in 4 months, empowering over 5 local vendors to collect online orders.
- Executed a successful 40-day pilot run, partnering with 5 shops and serving 2000+ happy customers, achieving sales of INR 200,000 and a 20% increase in revenue for participating vendors.
- Leveraged Next.js and Tailwind CSS to build a highly interactive and user-friendly interface, resulting in a 30% reduction in order processing time.

Projects

RevLyft

Remote

Shopify A/B testing plugin

May 2025 - Jul 2025

- Built a Shopify plugin to A/B test product prices and details for different user segments, optimising pricing strategies and product presentation for maximum conversion and revenue.

AiHello

Remote

SAAS Dashboard revamp

Jan 2025 - Feb 2025

- Collaborated with a Germany-based startup to revamp their Amazon ad automation tool frontend from scratch according to the provided UI/UX.

Freelance Projects

Remote

Front End Developer, UI/UX, Advert Designing

- Collaborated with over 30 diverse clients, and built 15+ landing pages, 5 micro SAAS products.

EDUCATION

Lovely Professional University

Punjab, India

B.Tech in Computer Science and Engineering

Aug 2020 - Jul 2024

- 8.6 CGPA, Computer Science fundamentals, Web Development.
